- (b) **“director”** means:
 - (i) a member of the board of directors of a company or an individual who performs similar functions for a company; and
 - (ii) with respect to a person that is not a company, an individual who performs functions similar to those of a director of a company;
- (c) **“eligibility adviser”** means:
 - (i) a person that is registered as an investment dealer and authorized to give advice with respect to the type of security being distributed; and
 - (ii) in Saskatchewan or Manitoba, also means a lawyer who is a practicing member in good standing with a law society of a jurisdiction of Canada or a public accountant who is a member in good standing of an institute or association of chartered accountants, certified general accountants or certified management accountants in a jurisdiction of Canada provided that the lawyer or public accountant must not:
 - (A) have a professional, business or personal relationship with the issuer, or any of its directors, executive officers, founders, or control persons, and
 - (B) have acted for or been retained personally or otherwise as an employee, executive officer, director, associate or partner of a person that has acted for or been retained by the issuer or any of its directors, executive officers, founders or control persons within the previous 12 months;
- (d) **“financial assets”** means cash, securities or a contract of insurance, a deposit or evidence of deposit that is not a security for the purposes of securities legislation. These financial assets are generally

liquid or relatively easy to liquidate. The value of a purchaser's personal residence would not be included in a calculation of financial assets;

- (e) **“financial statements”** for the purposes of paragraph (m) of the “accredited investor” definition must be prepared in accordance with applicable generally accepted accounting principles;

To calculate a purchaser's net assets under the “accredited investor” definition, subtract the purchaser's total liabilities from the purchaser's total assets (including real estate). The value attributed to assets should reasonably reflect their estimated fair value. Income tax should be considered a liability if the obligation to pay it is outstanding at the time of the distribution of the security;
