

Spartan Overview

Established in 2006, Spartan Fund Management is an asset manager that specializes in providing, through pooled funds, a broad selection of alternative investment solutions that meet a variety of investment needs. We believe that niche, non conventional investment strategies tend to outperform more traditional strategies and/or add needed diversity. We also believe that alternative investment strategies provide better risk-return opportunities for investors than do conventional strategies. Spartan accesses alternative investment strategies through internal investment teams or by way of feeder fund arrangements with external registrants.

Fund Overview, Objectives and Strategy

The MM Fund invests utilizing a "core and more" approach. The core portfolio consists of sustainable high yielding or dividend paying Canadian equity securities and, to a lesser extent, real estate investment trusts, convertibles, debt securities, preferred shares and U.S. equity securities.

The "more" consists of equity and debt, plus potentially warrants, small and micro capitalization stocks, that will likely have more volatility but a higher potential for capital gains. We will focus on inexpensive secular growth securities or beaten down stocks that have turnaround potential, because of new management, or because of an improvement in their macro-economic factors. We may also look to shorter-term event driven trading opportunities around, for instance, earnings, politics, war, famine, scandal, seasonality, apathy, etc.

Investments will mostly be made in Canadian equity securities and, to a lesser extent, debt securities and U.S. equity securities. The holdings in the core portfolio will typically be held for longer periods.

NAV/Unit

- Class A	265.3978
- Class F	292.5899

¹ Performance numbers are net of management and performance fees for the period commencing July 15, 2015 for the Class F units, but do not take into account early redemption fees if investments are held less than 1 year. Returns and statistics for other classes are available on request. 'Monthly' returns are simple returns and are not annualized. 'Annualized Std. Deviation' is the standard deviation, which measures the amount of variability of returns that has historically occurred relative to the average return. 'Max. Drawdown' is the maximum percentage decline, from the highest point to the lowest point. 'Sharpe Ratio' is the Annualized Compound Return divided by the Annualized Std. Deviation, both measured since inception. 'Correlation' measures the degree to which two securities move in relation to each other.

Monthly Commentary

After an unusually strong summer for markets, we saw back-to-school markets correct sharply on pre-election jitters and a continuing US economic slowdown. Over the long-term, stocks generally prefer low-tax Republicans versus the prospect of increased taxation and regulation with the Harris regime.

The S&P 500 fell 4.3% in a shortened week, the worst week since March 2023. Seasonally, September is notoriously the worst month for stocks, so we are not surprised that excesses are being wrung out now. The NASDAQ plunged 5.9%, including its worst week since Covid, and is now down 10.9% from its highs. Thankfully the MM Fund currently has zero exposure to the large cap technology sector.

For the economy overall, it is likely that the economic cycle can be extended, as lower interest rates and oil prices have their usual stimulative effects.

Thankfully, we finished our tax loss selling for 2024 in August when markets were still near all-time highs. We reinvested the proceeds into a senior care company, an existing investment that has been growing nicely after having struggled over Covid. We also increased our holdings in a Quebec-based gold exploration company that has over 10 million ounces in reserves. Gold has been outperforming crypto in 2024 due to many central banks moving away from their US dollar holdings and increasing their gold holdings.

The Fund has a 10.5% high-yield fixed income position where we are "paid to wait". We remain optimistic about the prospects for the rest of our portfolio, particularly when Q3 earnings are announced in October.

Please review the most recent offering memorandum for a detailed description of the Fund's strategy, objectives and risk factors. The above is provided for informational purposes only and is qualified in its entirety by way of the most recent offering documents, which is only available to qualified investors. Prospective investors should consult with a professional financial advisor before investing. Past performance cannot predict future results. Share value and yields will fluctuate. There can be no assurances that any of the Fund's objectives will be met. See Terms and Conditions of our website (www.spartanfunds.ca) for important information and qualifications regarding the use of benchmarking and indices. The index above was chosen as it is a widely used benchmark of the Canadian equity market. While the Fund uses this index for long-term performance comparisons, it is not managed relative to the composition of the index. There are differences which include security holdings, geographic and sector allocation which impact comparability. As a result, the Fund may experience periods when its performance differs materially from the index. Commissions, trailing commissions, management fees and expenses all may be associated with mutual fund investments. Please read the prospectus before investing. Unless otherwise indicated, rates of return for periods greater than one year are historical annual compound total returns including changes in unit or share value and reinvestment of all distributions, and do not take into account any sales, redemption, distribution or optional charges or income taxes payable by any security holder that would have reduced returns. Mutual funds are not guaranteed, their values change frequently and past performance may not be repeated.

The Fund is a related and connected issuer of Spartan Fund Management Inc. Spartan may act as dealer in connection with the distribution of securities of the Fund and will also receive management and performance fees from the Fund.
