

Spartan Overview

Established in 2006, Spartan Fund Management is an investment fund manager that specializes in providing a broad selection of alternative investment solutions that meet a variety of investment needs. We believe that niche, non-conventional investment strategies tend to outperform more traditional strategies and/or add needed diversification. We also believe that alternative investment strategies provide better risk-return opportunities for investors than do conventional strategies. Spartan accesses alternative investment strategies either through internal investment teams or by way of feeder funds that invest in existing funds that are managed by external fund managers.

Fund Overview, Objectives and Strategy

The MM Fund invests utilizing a "core and more" approach. The core portfolio consists of sustainable high yielding or dividend paying Canadian equity securities and, to a lesser extent, real estate investment trusts, convertibles, debt securities, preferred shares and U.S. equity securities.

The "more" consists of equity and debt, plus potentially warrants, small and micro capitalization stocks, that will likely have more volatility but a higher potential for capital gains. We will focus on inexpensive secular growth securities or beaten down stocks that have turnaround potential, because of new management, or because of an improvement in their macro-economic factors. We may also look to shorter-term event driven trading opportunities around, for instance, earnings, politics, war, famine, scandal, seasonality, apathy, etc. Investments will mostly be made in Canadian equity securities and, to a lesser extent, debt securities and U.S. equity securities. The holdings in the core portfolio will typically be held for longer periods.

NAV/Unit

- Class A 278.9759
- Class F 309.9131

¹ Performance numbers are net of management and performance fees for the period commencing July 15, 2015 for the Class F units, but do not take into account early redemption fees if investments are held less than 1 year. Returns and statistics for other classes are available on request. 'Monthly' returns are simple returns and are not annualized. 'Annualized Std. Deviation' is the standard deviation, which measures the amount of variability of returns that has historically occurred relative to the average return. 'Max. Drawdown' is the maximum percentage decline, from the highest point to the lowest point. 'Sharpe Ratio' is the Annualized Compound Return divided by the Annualized Std. Deviation, both measured since inception. 'Correlation' measures the degree to which two securities move in relation to each other.

Monthly Commentary

Amid all the media gloom on tariffs, the incoming data has validated our optimistic stance.

The Core PCE inflation indicator fell to 2.5% year-over-year in April, the lowest since March 2021, while personal income in the US surged 0.8% in April, almost triple the 0.3% expectation. The Atlanta Fed has increased its Q2 GDP estimate to over 4% on the back of positive data points. If inflation remains near 2%, we expect Trump will finally get the rate cuts he has been pushing for.

Many are touting the TACO trade, suggesting that Trump's harsh tariffs will eventually be ground down to pre-liberation day levels. However, Trump's proposed personal and corporate tax cuts, plus increased defense spending, increases the US deficit by almost \$4 trillion over the next decade in the "Big Beautiful Bill".

Nearly \$23 billion in tariff taxes were collected in May, so annualized tariff taxes could amount to about \$300 billion, almost paying for the tax cut package. We believe 10-30% tariffs will remain for most trading partners, to help put the US deficit on a sustainable debt trajectory, with tariffs acting as an alternative revenue stream.

One of the oldest market mantras is "sell in May and go away", but 2025 was the exception with the S&P 500 having the best May since 1990, and the best month overall since November 2023.

The March/April correction gave us the opportunity to buy more of our favorites. We also took some profits in a large capitalization gold company and reinvested into a prospective Canadian gold exploration company.

Please review the most recent offering memorandum for a detailed description of the Fund's strategy, objectives and risk factors. The above is provided for informational purposes only and is qualified in its entirety by way of the most recent offering documents, which is only available to qualified investors. Prospective investors should consult with a professional financial advisor before investing. Past performance cannot predict future results. Share value and yields will fluctuate. There can be no assurances that any of the Fund's objectives will be met. See Terms and Conditions of our website (www.spartanfunds.ca) for important information and qualifications regarding the use of benchmarking and indices. The index above was chosen as it is a widely used benchmark of the Canadian equity market. While the Fund uses this index for long-term performance comparisons, it is not managed relative to the composition of the index. There are differences which include security holdings, geographic and sector allocation which impact comparability. As a result, the Fund may experience periods when its performance differs materially from the index. Commissions, trailing commissions, management fees and expenses all may be associated with mutual fund investments. Please read the prospectus before investing. Unless otherwise indicated, rates of return for periods greater than one year are historical annual compound total returns including changes in unit or share value and reinvestment of all distributions, and do not take into account any sales, redemption, distribution or optional charges or income taxes payable by any security holder that would have reduced returns. Mutual funds are not guaranteed, their values change frequently and past performance may not be repeated.

The Fund is a related and connected issuer of Spartan Fund Management Inc. Spartan may act as dealer in connection with the distribution of securities of the Fund and will also receive management and performance fees from the Fund.
