Product

The investment objective of Alpine SPRIM™ Private Markets Fund ("Alpine SPRIM") is to invest directly into StepStone (Luxembourg) SCA SICAV-RAIF –StepStone Private Markets (the "Luxembourg Fund"), StepStone Private Markets Feeder Ltd. The Cayman Fund is, in turn, expected to invest substantially all of the funds received from the issuance of Cayman Fund Shares in shares of the Delaware Fund.

education savings plan, deferred profit sharing plan or registered disability savings plan.

All information is as of February 28, 2026 unless otherwise stated.

- 1 See "Product" in the Key Terms section on the previous page.
- 2 The information and any statistical data contained herein have been obtained from sources which CIBC Asset Management Inc. ("CIBC AM") and Spartan Fund Management Inc. (the "Manager") believe to be reliable but neither CIBC, CIBC AM nor the Manager has independently verified the accuracy or completeness of any such information or assumes any responsibility for the completeness or accuracy of such information.
- 3 Calculated on an asset-weighted basis based on Alpine SPRIM's exposure to each of the Luxembourg Fund and the Delaware Fund. Stated as a percentage of each of the Luxembourg Fund and the Delaware Fund's private markets investments, generally at the fund level as reported by the relevant fund manager.
- 4 Calculated on an asset-weighted basis based on Alpine SPRIM's exposure to each of the Luxembourg Fund and the Delaware Fund. Stated as a percent of the total fair value of each of the Luxembourg Fund and the Delaware Fund's investments at the portfolio company level as of January 31, 2026.
- 5 This table reflects the performance of Class F units of Alpine SPRIM since inception of Alpine SPRIM on September 1, 2022. Performance of other unit classes may vary. Prior to December 29, 2023, the investment objective of Alpine SPRIM was solely to invest in the Cayman Fund (which in turn invests in the Delaware Fund). The performance of Alpine SPRIM prior to January 2024 is therefore reflective of the performance of the Cayman Fund only. Following December 29, 2023, the performance of Alpine SPRIM is calculated on an asset-weighted basis based on Alpine SPRIM's exposure to each of the Luxembourg Fund and the Cayman Fund (which in turn invests in the Delaware Fund). Alpine SPRIM will allocate a portion of its assets to multiple investment funds and shareholders will bear two layers of fees and expenses. The costs and expenses applicable to an investment in Alpine SPRIM will necessarily result in Alpine SPRIM underperforming the StepStone SPRIM Funds.
- 6 Returns shown reflect the percent change in the NAV per unit from the beginning of the applicable period, plus the amount of any distribution per unit declared in the period. Returns shown assume reinvestment of distributions pursuant to terms of the unit classes. The date of inception for unit classes A and XF is September 1, 2022 with an initial starting NAV of US\$100. The date of inception for unit Class F is November 1, 2022 with an initial starting NAV of US\$100. The date of inception for unit classes A-CAD, F-CAD and XF-CAD is December 1, 2023 with an initial starting NAV of C\$100.
